PROFESSIONAL SUMMARIES

Information Technology undergraduate focused on Machine Learning, NLP, and Generative AI, building LLM and RAG applications with Python, Transformers, and FastAPI.

TECHNICAL SKILLS

Programming Languages: Python, SQL, JavaScript

Machine Learning: Machine Learning, Deep Learning, NLP, Scikit-Learn, PyTorch, XGBoost, TensorFlow

Generative AI: LLMs, Transformers, RAG, Embeddings, Vector Databases, Hugging Face, LangChain, AI Agents

AI Engineering: FastAPI, REST APIs, Pydantic, Model Deployment, Docker, CI/CD

Data & Database: NumPy, Pandas, PostgreSQL

Cloud & Tools: AWS, Git, GitHub, Linux, MLFlow, Postman

EXPERIENCE

Softcoding Solutions

Python AI/ML Intern (15 Days)

- Built and evaluated supervised machine learning models using Python and Scikit-learn.
- Applied data preprocessing, feature engineering, model training, and evaluation techniques.

EDUCATION

SAL Engineering and Technical Institute, Ahmedabad 2023 - Present
Bachelor of Engineering (B.E.) in Information Technology GPA: 7.7/10 (through 6th semester)

- Relevant coursework: AI/ML, Data Science, DBMS, OOP, Computer Networks.

PROJECTS

[RAG – Deep Learning Book Q&A](#)

- **Built an end-to-end Retrieval-Augmented Generation (RAG) application** for question answering over domain-specific deep learning content.
- **Developed the retrieval pipeline** using LangChain, Hugging Face Transformers, embeddings, document chunking, and ChromaDB vector search.

[LSTM Next Word Prediction System](#)

- **Developed and trained an LSTM-based NLP model** for next-word prediction using tokenization, sequence generation, padding, and word embeddings.
- **Implemented sequential text processing** to capture contextual dependencies for predictive text generation.

LEADERSHIP EXPERIENCE

Technical Head — ISTE SAL | Sept 2024 – Present

- Led technical and media teams to coordinate 50+ events for 800+ participants, managing logistics and scheduling.

CERTIFICATIONS

Python AI/ML Internship, Softcoding Solutions

Python Programming Certification
